Improve Productivity & Cut Costs

More than ever, you will need a simple and easy tool to gain control over the remote and mobile workforce and save high infrastructure cost. Managing staff attendance at all of your remote sites, branches and kiosks is very daunting task. Setting up infrastructure for few individuals is costly. Without any attendance management you will be incurring losses in productivity as well as business.

Mahaveer brings you on the go tracking solutions of your mobile workforce so that you can deliver services to your clients in a timely manner. You can covertly track your workforce such as support technicians, sales people and staff non-intrusively using SIM and cell tower connectivity that will work on any kind of mobile phone or device. Smartphones are not required.

Track

Timely Service

Gain control over dispatch and delivery timings of your staff and provide better service to customer. Track the movement of your staff on the go. You can know the delays in providing service and update your clients about time of arrival.

Validate Expenses Claimed

Ensure claims are made for the trips made as per schedule or time and locations.

Grouping

Easily group workforce as per organization structure or nature of work and view each group in detail.

Attendance

Instant Attendance Report

Get dynamic attendance reports anytime anywhere and monitor the opening and closing hours at each of your remote sites. Analyze arrival and departure patterns at an aggregate level as well as at each individual level. Make necessary adjustments

Attendance reports are COLOR CODED for easy identification and mapping of number of arrivals to individuals arrival timings, short working hours etc..

Secure Access

Role-based Access

Further to grouping, restrict access of your distributed workforce as per your organization reporting structure.

A remote branch manager can only view the staff assigned to him. Regional site can only view all remote branches in that region. Headquarters can view all the workforce, grant and restrict access to branch managers or regional heads as needed.

Alerts

Receive SMS or Email alerts if your staff arrives or departs at the remote site. Alerts will be sent to corresponding reporting supervisor/manager.
